What is a DAOstack?

- Operational stack for DAOs
- Operating System for collective Intelligence

The Problem

The Firm

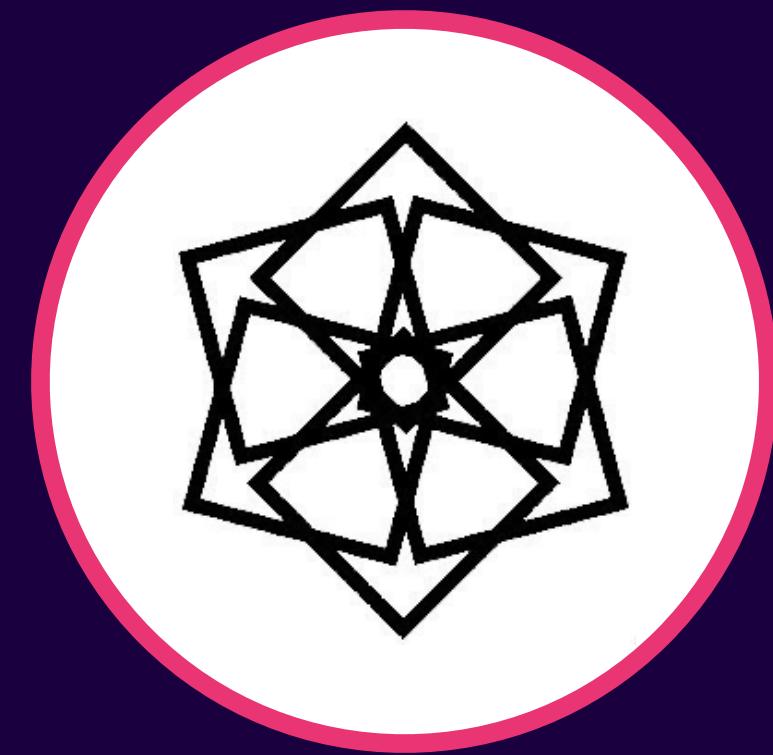

- 👍 Orientable organization
- 👎 Growth results in inefficiency

- 👍 Very scalable
- 👎 Not orientable

The Solution

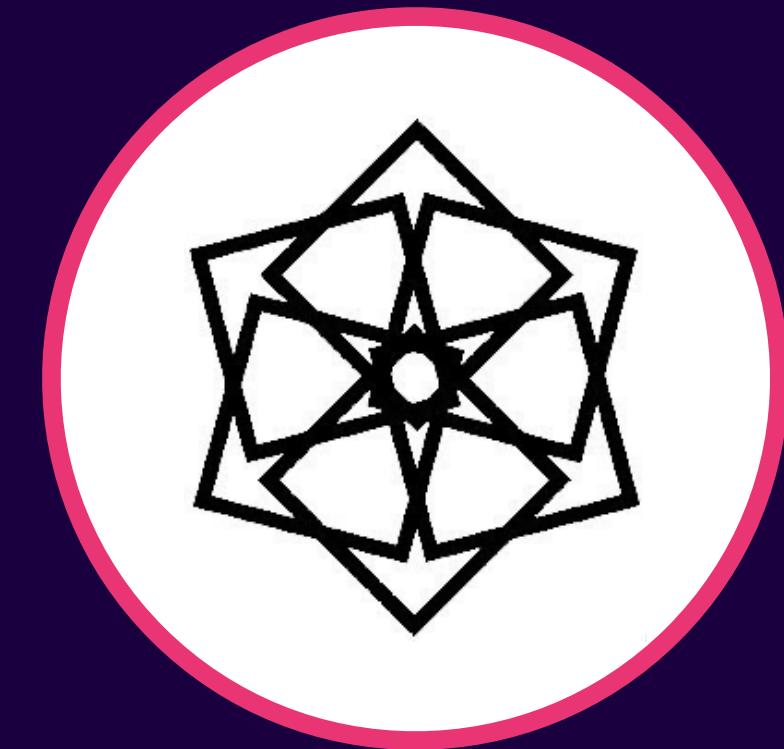

DAO : Orientable + Super-scalable

- 👍 Granular efficiency like a small firm (lean startup)
- 👍 Improves as it scales ➡ exponential growth

DAO: Complex System

- Build it from bottom up 
- Provide elements :     
- Engineer dynamics for evolution 
- Good initial conditions 

DAOstack Ecosystem

- Research: Mechanism design
- Implementation: Protocol Development
- Tooling: Deployment, Upgradability, Schemes
- Products: Mobile + web development
- Community: 🎉👩💻 区块松DAO, DAOfest etc

#DAOstack
